

Teacher's feedback after the visit in Bulgaria, June 2013.

Dear Friends,

Bulgaria is a country which convinced me that mountains can be beautiful. I love seaside but everything that I have seen in Bulgaria was just amazing! I was able to look at mountains from above which was incredible. After travelling along these mountain roads I'm not afraid of flying anymore.

Natural beauty is the one thing that fascinated me. The other is nice and hospitable people. They were willing to talk to us no matter the language.

It's a pity it was raining a lot but even in bad weather Bulgarian landscapes and people made a huge impression on me. This trip made me realize how beautiful the world is and how happy we should be to have the opportunity to see it.

Thank you very much, Mariola Mikołajczak, POLAND
